HIGH-SPEED SINGLE DISC MACHINE.

HS 403

- Robust single-disc machines 'Made in Germany' – for over 70 years. For daily, long-term use.
- This machine – with a high-torque, centrally mounted motor – is ideal for economical spray cleaning and polishing in buildings with various surfaces.
- The high-speed machine has planetary gearing with three wear-free helical planet gears that distribute the force evenly over the entire working width. That means quite running and easy steering. The maintenance-free planetary gearing and the powerful 1200 W motor are perfectly matched and guarantee high performance at all times and a long service life.
- Work safely and with less operator fatigue: includes continuously variable handle grip and a safety button to prevent accidental operation.
- The body casings are made from Aluminium.
- Large operating range as standard: 12-metre waterproof and kink-proof mains cable.
- Flat construction to fit under radiators, pipes and shelves.
- The rubber bumper ring protects both the machine and the working environment.
- Various accessories available depending on use: tank, sprayer, suction unit with ring for dust-free operation and additional weights for increased surface pressure.

HS 403

L x W x H	415 x 550 x 1200 mm
Working width	400 mm
Ground clearance max.	160 mm
Working height max.	320 mm
Noise level	67 dB(A)
Weight	40 kg

ELECTRICAL DATA

Rated voltage	230 V/50 Hz
Power total	1200 W
Mains cable	12 m

BRUSHES AND PAD HOLDERS

Speed	300 rpm
