KIMTECH[®]

Creating an exceptional
workplace through:
**healthier, safer and more
productive** solutions

Providing efficient solutions

Why choose our wiping solutions?

KIMBERLY-CLARK PROFESSIONAL* is a leading global supplier for total health, safety and hygiene solutions. You can depend on us when you require reliable, high performing wiping solutions.

That's because we are totally committed to:

- Personal service, maintaining strong relationships with every customer, assisting you in finding the best product solutions
- Consistent high-quality, supported by industry accreditations
- Our global WYPALL* and KIMTECH* Brands drive innovation that make a reliable and positive difference in all workspaces
- Sustainability is always integral to the way we design, manufacture and transport our products

Understanding what is important to you

Through our work with customers around the globe, we understand the importance you place on improving efficiency. That, too, is our number one focus.

We provide a comprehensive range of wiping solutions that meet critical and non-critical tasks giving you the confidence to succeed.

Putting your efficiency first

With more than 15 years of wiping expertise, we understand the pressures of managing costs whilst maintaining high levels of hygiene and productivity.

In putting your efficiency first, we will always deliver:

- The most suitable products for each of your wiping requirements
- Cost effectiveness, giving a choice of dispensing systems and formats to help you reduce wiper usage
- Advanced technologies, like HYDROKNIT* Material and AIRFLEX* Fabric, that perform wiping tasks better and reduce disposal costs

Sustainability 2022

At Kimberly-Clark, everything we do – from helping people care for their families, to helping our communities and caring for our planet – is connected to our vision to lead the world in essentials for a better life.

Sustainability 2022 is our sustainability strategy and a significant milestone as we celebrate our 150th anniversary in business.

Did you know?

Our HEAVY DUTY WIPES

- **weigh five times less** than standard rags, creating

37% LESS WASTE
(by weight) on disposal

- **are twice as absorbent** as other light dried crepe wipers, **so you use less**

Our WETTASK* System

- **reduces solvent use** by

UP TO 20%
and **reduces VOCs**

Global Brands you can trust

Our global WYPALL* and KIMTECH* Brands make a reliable and positive difference in all workspaces.

WYPALL*
BRAND

When you take on a job, you want the right tools – to get it done efficiently and to achieve the most professional results possible.

Why should your choice of wipers – to clean, prepare or protect workplace surfaces – be any different?

Your choice makes a difference – even for everyday tasks.

Choose WYPALL* Brand.

KIMTECH*

The KIMTECH* Brand delivers contamination control solutions for regulated industries.

KIMTECH* puts process protection at the forefront, with its surface cleaning and preparation tools and personal protective equipment.

Choose KIMTECH* Brand.

Selecting the right wiper for your needs

Across the entire range, we offer a wide range of performance options, formats and dispensing solutions. By working together, we will find you the best wiping solution that is tailored to your exact needs and tasks.

When deciding what is most important with the task at hand, consider the following three areas.

01

Your application

What type of wiper characteristics do you require to complete your task?

- Highly absorbent, faster and more effective?
- Strong and tear resistant?
- Resistant to solvents?
- Low lint?
- Coloured for task segregation?
- Disposable or reusable products?

02

Your dispensing needs

What kind of dispensing do you require for your task?

- Would high capacity, mobility or hygienic single sheet dispensing be best in your environment?
- What size of wiping sheet would be most effective, but not wasteful?
- Do you need a special system to reduce product damage or prevent wipers becoming contaminated?

03

Waste Disposal

What type of waste disposal do you need to consider?

- Are you concerned about using less and throwing less away?
- Is better wiping performance as important to you as the cost to the environment?
- Are you wiping hazardous substances?

Your Selection Guide

Metal Manufacturing

We understand the pressure of managing costs whilst maintaining high levels of efficiency and quality. By working together, we can help to optimise your wiping effectiveness whilst reducing costs and waste levels. We supply an extensive high-quality range of products that support the entire Metal Manufacturing process:

Metal Fabrication

When a piece or a sheet of metal is shaped or converted into a part, a component or even a finished product, processes such as grinding, cutting, forming or machining are used.

Tasks involved are:

General wiping

Product suggestions:

- WYPALL* X80/X90 Cloths
- WYPALL* L EXTRA Wipers
- WYPALL* Cleaning Wipes

Surface preparation and metal finishing

When a part or component has been fabricated, the surface needs to be cleaned and prepared, for example through sanding, shot blasting, solvent and chemical cleaning. Once the surface is prepared, it is then ready to receive a protective layer. Processes such as painting, cutting, or plating are used.

Tasks involved are:

Controlled environment wiping, solvent wiping, surface cleaning and delicate surface wiping

Product suggestions:

- WYPALL* X80/X90 Cloths
- WYPALL* L EXTRA
- WYPALL* L ULTRA Wipers
- KIMTECH*/ WETTAS* SXX Wipers
- KIMTECH* Surface Preparation Microfibre Cloths

Assembly

When components are joined to make a finished product through processes such as bolting, clipping, fastening, riveting or gluing.

Tasks involved are:

General wiping

Product suggestions:

- WYPALL* X60 Cloths
- WYPALL* L ESSENTIAL Wipers
- KIMTECH* Disposable Microfibre Cloths

Maintenance and planned down time

When machinery, tools and plant vehicles are prepared, repaired and cleaned on a regular basis.

Tasks involved are:

General wiping

Product suggestions:

- WYPALL* X80/X90 Cloths
- WYPALL* L EXTRA Wipers
- WYPALL* Cleaning Wipes

Automotive

Re-working paint defects costs the European Automotive Industry in excess of €131 million a year.¹

We understand the importance of balancing high-quality wiping with improved productivity and profitability. Designed for the task, our wiping solutions get the job done to a high standard, first time. We have a range of wiper products to better support specific Automotive manufacturing tasks:

Surface Prep and Paint

When a part or component has been fabricated and the surface needs to be cleaned, prepared and finished, for example during panel preparation and painting in automotive applications.

Tasks involved are:

Controlled and critical environment wiping, i.e. pre-paint applications in the automotive industry

Product suggestions:

- KIMTECH*/ WETTASK* SXX Wipers
- WYPALL* L40 Wipers
- WYPALL* X80 Cloths
- KIMTECH* Wipers

Assembly

When several parts or components are assembled together to create a frame or a finished product.

Tasks involved are:

General wiping, controlled and critical wiping, i.e. engine assembly

Product suggestions:

- KIMTECH*/ WETTASK* SXX Wipers
- KIMTECH* Sealant Wipers
- WYPALL* Cleaning Wipes
- WYPALL* X80 Cloths

Final finishing and delivery

When a finished product needs to be thoroughly cleaned prior to delivery to the customer.

Tasks involved are:

Delicate wiping, polishing, buffing and general cleaning

Product suggestions:

- KIMTECH* Microfibre Cloths
- WYPALL* Cleaning Wipes

Maintenance

When machinery, tools and plant vehicles are prepared, repaired and cleaned on a regular basis.

Tasks involved are:

General wiping

Product suggestions:

- WYPALL* X80 Cloths
- WYPALL* L EXTRA Wipers
- WYPALL* Cleaning Wipes

Products listed are suggestions only. For the most cost efficient and effective wiping results, we always recommend that customers take up our full site analysis and trial. Ask your sales representative for details.

1. ACEA 2012 - Europe produces >17 Million vehicles p/a. Assuming an average 3% defect rate and an average re-work cost of €300, the industry spent €153 Million on re-work.

Aerospace

Up to 40% of workers report fatigue in the EU¹, with the potential to reduce productivity by 150 minutes per employee per day.²

Within Aerospace manufacturing and maintenance environments, we understand the need to continually improve operational efficiency and turnaround times, whilst meeting industry requirements on compliance. Our tailored wiping range can help to deliver measurable improvements in productivity, worker safety and Foreign Object Debris avoidance:

Surface Prep and Paint

Controlled and critical environment wiping, i.e. Final painting in the Aerospace industry

Product suggestions:

- KIMTECH* Aerospace Wipers
- WETTASK* Refillable Wiping Solutions
- KIMTECH* Wipers

We understand your day to day challenges to meet TAT (turn around time) and our products are custom designed with OEM's to help in eliminating FOD, reducing VOC's and ensure superior productivity.

Assembly / Final assembly (FAL)

Assembly of wings, large sections of fuselage, avionics or small components, final assembly of the aircraft

Tasks involved are:

Controlled and critical environment wiping, avoidance of VOCs and FODs and static build up

Product suggestions:

- KIMTECH* Aerospace Wiper range
- WETTASK* Refillable Wiping Solutions

Maintenance, Repair & Overhaul (MRO)

From engine maintenance to Wheels & Brake shop or Components shop – we have a wide range of OEM QPL certified products to meet to suit each task.

Tasks involved are:

General wiping and cleaning

Product suggestions:

- KIMTECH* Aerospace Wiper Range
- WETTASK* Refillable Wiping Solutions
- WYPALL* X80 FOD Prevention Wipers

1. OSHA Europa Source 2. Third Pillar of Health.

Products listed are suggestions only. For the most cost efficient and effective wiping results, we always recommend that customers take up our full site analysis and trial. Ask your sales representative for details.

Food Processing

Machine downtime is costing manufacturers approximately €125,000 each year in lost production and €1,055/hour whilst the equipment is idle.¹

Better cost management does not mean compromising on high hygiene standards. Designed to help comply with vigorous cleaning programmes, our food processing products are designed for ease of use and speed, minimising down time and supporting your brand success. During development, we have considered each processing phase:

Cleaning during product changeovers

When a line is used to produce different products or flavours of the same products, changeover stops are required for the line to be cleaned to remove any traces of the previous products.

Tasks involved are:

Cleaning and drying of machinery equipment

Product suggestions:

- WYPALL* X50 Cleaning Cloths
- WYPALL* X80 Cleaning Cloths

Cleaning production debris/spillages

When food spillage or accumulation of ingredients have to be removed from the process to stop build up of ingredients contaminating the process.

Tasks involved are:

Wiping excess ingredients, spillages

Product suggestions:

- WYPALL* X50 Cleaning Cloths

Deep cleaning

Set times when a line is stopped to be thoroughly cleaned and sanitised.

Tasks involved are:

Cleaning and drying of machinery equipment, chemical wiping

Product suggestions:

- WYPALL* X80 Cloths
- KIMTECH*/ WETTASK* DSX Wipers

Maintenance

When machinery, tools and plant vehicles are prepared, repaired and cleaned on a regular basis.

Tasks involved are:

General wiping

Product suggestions:

- WYPALL* X80 Cloths
- WYPALL* L EXTRA Wipers
- WYPALL* Cleaning Wipes

Healthcare

Across Europe, Healthcare associated infections cost €7 billion and translate to 16 million extra days of hospital stay, annually.¹

In hygiene critical environments, our extensive wiping range can help to minimise the spread of infection and enhance patient confidence. They are the safest choice, to help meet healthcare cleaning protocols and to reduce the spread of germs and cross-contamination.

Cleaning and disinfecting

When healthcare facility areas are required to be maintained at the highest levels of hygiene, such as wards, patient treatment rooms, bedrooms and nursing stations.

Tasks involved are:

Surface cleaning and disinfection, task segregation

Product suggestions:

- WYPALL* X80 Cleaning Cloths
- WYPALL* X50 Cleaning Cloths
- KIMTECH*/ WETTASK* DSX Wipers

Patient care

When high patient throughput demands swift covering solutions and when cleaning solutions are required to maintain the patient's highest personal hygiene.

Tasks involved are:

Cleaning, drying and disinfecting patients

Product suggestions:

- WYPALL* L40 Wipers – Quarterfold
- KIMTECH* Absorbent Towels
- KIMTECH* Medical Wipes

Food preparation and restaurants

When wiping systems are required in food preparation areas to mop up spills and wipe down surfaces and maintain cleanliness of restaurant facilities.

Tasks involved are:

Mop up spills, cleaning of equipment and surfaces

Product suggestions:

- WYPALL* X80 Cleaning Cloths
- WYPALL* X50 Cleaning Cloths
- KIMTECH*/ WETTASK* DSX Wipers

Maintenance of facilities

When maintenance of facility equipment and public areas is required to protect against incoming infection as well as potential cross-contamination.

Tasks involved are:

General wiping, disinfection wiping, task segregation

Product suggestions:

- WYPALL* X80 Cloths
- WYPALL* L EXTRA Wipers
- WYPALL* Cleaning Wipes
- KIMTECH*/ WETTASK* DSX Wipers
- WYPALL* X50/X80 Cleaning Cloths

Products listed are suggestions only. For the most cost efficient and effective wiping results, we always recommend that customers take up our full site analysis and trial. Ask your sales representative for details.

Fact sheet – Health-care associated infections.

Single-use Wipers

When you need a single-use wiper for mopping up spills, cleaning hands and wiping surfaces, this range excels.

Three Product Tiers, so that you can choose the right wiper for right task

Every day wiping
WYPALL* L ESSENTIAL

Multi-purpose wiping & cleaning
WYPALL* L EXTRA

Superior cleaning
WYPALL* L ULTRA

Our WYPALL* L range enables you to confidently get the job done

Improve
productivity

Improve cleaning
efficiency

Maintain high
standards of hygiene

Keep users
happy

15%
FEWER
USED

WYPALL* L Wipers are twice as absorbent as other light dried crepe wipers. It means you use 15% fewer to complete the same task.¹

AIRFLEX*
HIGHLY ABSORBENT FABRIC

1. Based on independent market research.

Everyday Wiping WYPALL* L ESSENTIAL

Value & versatility for light duty wiping tasks

Our WYPALL* L ESSENTIAL Wipers are best used for everyday wiping tasks when seeking value and versatility.

- **Products**
WYPALL* L10 ESSENTIAL (1 ply)
WYPALL* L20 ESSENTIAL (2 plies)

Ideal for:

- **Final assembly wiping**
Water spills, spray and wiping applications
- **Multi-purpose applications**
Quickly cleans up water spills, dries and clean hands, and for wiping around food preparation areas
- **Flexible working**
Can be used in various areas around the workplace

Supplied formats:

Technology / Certification:

Colour Options:

Multipurpose Wiping & Cleaning WYPALL* L EXTRA

Reliability for medium duty wiping tasks

- **AIRFLEX* Fabric**
Large air pockets quickly absorb more water and oil, requiring fewer sheets to get the job done
- **Gentle wiping**
For delicate polishing and removal of dust and grime
- **Products**
WYPALL* L10 EXTRA (1 ply)
WYPALL* L20 EXTRA (2 plies)

Ideal for:

- **Removing light soiling, smear-free spray and wipe finishes**
Polishing glass, smooth surfaces and cleaning tools
- **Quickly absorbing large amounts of liquids**
High and fast absorbency
- **A wide-range of tasks**
Multiple dispensing options available depending on the task

Supplied formats:

Technology / Certification:

Colour Options:

Superior Cleaning WYPALL* L ULTRA

Strength and absorption for heavy duty wiping tasks

Soaks up industrial spills, cleaning parts and components

- **Strong and absorbent**
Our 3 ply AIRFLEX* Fabric provides excellent strength and high absorbency for more demanding tasks
- **Bulk**
Encourages less sheets to be used resulting in improved cost efficiency
- **Product**
WYPALL* L30 Ultra (3 plies)

Ideal for:

- **Oil spills**
Soaks up oil and grease rapidly
- **Machine wiping**
For heavy duty single use cleaning, such as machinery components, tools, and equipment
- **Hand protection**
Thicker than conventional wipers resulting in greater hand protection
- **High volumes of spillage**
Highest absorbency in the range

Supplied formats:

Technology / Certification:

Colour Options:

Food recalls cost the food processing industry in Europe over €190m per year.¹

24% of these recalls are caused by pathogenic micro-organisms.²

The solution: Roll Control Dispensing System

Reduced risk of contamination, improved audit compliance and waste reduction thanks to controlled consumption

To learn
more:
Page 14

1. Stirlingreid - 2004 cost of product recall. €190 million including lost sales, communications, brand damage etc.
2. RASFF 2013 Food recall - summary (other causes: Pesticide residues, Mycotoxins, Heavy Metals, Composition, Adulteration/Fraud, Foreign bodies)

WYPALL* L40 Wipers absorb double the amount of water compared to conventional wipers and up to 37% more oil.

Delicate Wiping WYPALL* L40

Efficient general-purpose single use wiper

Utilising our unique Double Re-Creped (DRC) base sheet technology, WYPALL* L40 Wipers absorb liquids, oil, grease and larger spillages fast:

- **Highly- absorbent single use wiper**
Unique sponge-like inner layer soaks up liquids fast, staying strong when wet
- **Suitable for most surfaces, including hand/face use**
With soft, touchable outer layer
- **Great everyday price**
Cost efficient alternative to airlaid wipers

Ideal for:

- **Routine industrial cleaning and general maintenance**
Cleaning up large liquid spills and leaks
- **Efficient process line wiping**
Rapidly absorbing spillages, minimising production interruptions
- **Patient wiping tasks**
Outer layer soft enough for hand and face wiping, encouraging hygienic single use to minimise germs spreading

Supplied formats:

Technology / Certification:

Colour Options:

Reusable & Strong Cloths

WYPALL*
BRAND

The reusable WYPALL* X Cloths are absorbent and solvent resistant and strong enough to tackle tough tasks, whilst also designed to be cost and time efficient.

Our HYDROKNIT* Technology

Using our patented HYDROKNIT* Material, WYPALL* X Cloths are manufactured by entangling pulp and polypropylene together using high-pressure water jets. Creating reliable wipers that keep their shape and can be used again and again:

- Highly absorbent – can mop up spills, clean hands and wipe down machinery quickly
- Strong and durable when wet and dry – ideal for tough tasks
- Resistant to most solvents – ideal for applying solvents to a surface or cleaning down
- Contain no adhesives or binders, reducing surface residue

Our POWERPOCKETS* Technology

Our unique POWERPOCKETS* Technology is now available in most WYPALL* X70 and X80 Cloths. Giving better absorption, improved cloth like feel and better scrubbing power.

Built in pockets help trap dirt and grime quicker and more effectively, leaving surfaces cleaner and reducing waste.

WYPALL* X80 Cloths weigh **5** times less
than an average rag.

By throwing away less, it costs you less.

WYPALL* X50/60 Cloths

Versatile and durable, for precision wiping

Created for light duty, general purpose wiping tasks, including glass cleaning, WYPALL* X50 and X60 Cloths are:

- **Conformable and light-weight**
For delicate part cleaning, soaking up light spills, reaching difficult surface areas and hand wiping
- **Suitable for thinner and solvent application**
Yet strong enough to scrub off adhesive, remove oil and debris
- **Sized specifically for lighter tasks**
Giving consistent performance, helping to reduce waste and operational costs

Ideal for:

- **Applying lubricants and precision cleaning**
Using thinners and solvents. Reaching tight creases and wiping down intricate machinery parts
- **Glass cleaning and wiping**
Removing dirt, oil and debris
- **Cleaning final assembly parts**
Providing a high-quality finish

Supplied formats:

Technology / Certification:

Colour Options:

WYPALL* X70 Cloths

Fast-absorbing, for medium-duty tasks

Even when wet, WYPALL* X70 Cloths stay soft, bulky and keep their shape:

- **Long-lasting, efficient absorbency**
Quickly wipes away grease, grime and solvents
- **Easy to work with**
Stays soft and durable, wet or dry, and can use with solvents
- **Cost efficient**
Just rinse out and reuse, cutting waste
- **Multipurpose**
Keeps tools and machinery clean, plus food contact compliant

Ideal for:

- **Heavy maintenance**
Economically wiping away oil, grease, grime and solvents from surfaces and tools
- **Tools and machinery cleaning**
Wiping up cutting fluids and protecting parts
- **Metal surfaces**
Fast-absorbing, soft and bulky for easy and efficient cleaning

Supplied formats:

Technology / Certification:

Colour Options:

* for selected products

One sheet of WYPALL* X80 Cloth is strong enough to lift a weight of 60 kg.

WYPALL* X80 Cloths

Strong, bulky cloths, for tough maintenance and wiping tasks

Fast, high absorbency coupled with great tear resistance strength. WYPALL* X80 Cloths are a perfect replacement for rags:

- **Tear resistant, fast absorbing HYDROKNIT* Material**
Strong enough to clean the roughest surfaces without falling apart
- **Use with water and solvents**
Can be rinsed out and reused
- **Roll and sheet dispensing formats**
To suit your needs

Ideal for:

- **Heavy duty machine and part wiping**
Cleaning rough surfaces without breaking up
- **Maintenance tasks**
Wiping away grease, oil and absorbing heavier soiling
- **Prepping surfaces**
Rinsable wipers, for use with solvents or water

Supplied formats:

Technology / Certification:

Colour Options:

* for selected products

Incredibly, just 5 large rolls of WYPALL* X90 Cloths can absorb 200 litres of oil!

WYPALL* X90 Cloths

2-ply material gives better absorbency

WYPALL* X90 Cloths efficiently improve workplace wiper performance:

- **Reducing product waste**
Two plies of advanced HYDROKNIT* Material are bonded together, giving bulkier, stronger wipers that can reduce product waste by up to 35%¹
- **Get jobs done quicker**
Combining polyester and wood fibres, this 2-ply material creates a more absorbent wiper, for faster more effective wiping
- **Reduces risk of surface damage**
Polyester fibres create a soft and comfortable wiper, making it easier to clean difficult areas
- **Innovative controlled dispensing**
Helping control usage costs and reducing waste further

Ideal for:

- **Highly absorbent**
To mop up oil or water spills
- **Easy and intricate wiping**
For machinery and small components due to high conformability
- **Feels like cloth**
Soft enough to clean hands

Supplied formats

Technology / Certification:

Colour Options:

¹ Compared with WYPALL* X80 Cloths, assuming the same cloth use

WYPALL* X50 colour-coded Cleaning Cloths

Light & Medium duty wiping for hygienic segregated cleaning tasks

Fast, ultra-absorbent, tear-resistant and longer lasting:

- **Four colour variants**
One for each cleaning task, reducing the risk of cross contamination, enhancing regulatory hygiene practices
- **Rinse and reuse**
Optimal usage, increasing the life of every cloth, helping to reduce waste and lowering cost in use
- **Perfect solution**
in conjunction with our AQUARIUS* Interfolded Paper Dispenser

Ideal for:

- **Kitchen tasks, cleaning tables and counters**
Cleaning down equipment and food preparation tools, wiping away oil and fats. Rinse and reuse, lowering cost in use
- **Wiping in Healthcare**
Cleaning down rooms, washrooms and trays
- **Reducing the risk of cross contamination**
Coloured cloths for each area/task, reducing germs spreading between washrooms, clinical and patient areas

Supplied formats:

Technology / Certification:

Colour Options:

WYPALL* X80/X80 Plus colour-coded Cleaning Cloths

High-performing for hygienic segregated cleaning tasks

Fast, ultra-absorbent, tear-resistant and longer lasting:

- **Four colour variants**
One for each cleaning task, reducing the risk of cross contamination, enhancing regulatory hygiene practices
- **Rinse and reuse**
Optimal usage, increasing the life of every cloth, helping to reduce waste and lowering cost in use
- **POWERPOCKETS* Technology**
designed to help improve cleaning action
- **Perfect solution**
in conjunction with our Quarterfold Wiper Dispenser (for POWERPOCKETS* Technology only)

Ideal for:

- **Suggested tasks**
Debris pick-up and surface cleaning where task segregation is a requirement. Used alone (dry or wet) or with most disinfectants
- **Industrial-scale food processing tasks**
Ultra-absorbent and tear resistant for deep cleaning, changeovers and conveyor cleaning
- **Reducing the risk of cross contamination**
Coloured cloths for each area/task, reducing germs spreading between washrooms, clinical and patient areas

Supplied formats:

Technology / Certification:

- Mobile dispensing options = Efficiency

WYPALL*
BRAND

Speciality Wipers

KIMTECH*

WYPALL*
BRAND

Engineered performance for controlled environments

Certain controlled tasks require very specific wiping products and dispensing systems. With this in mind, we applied our expertise and wiping technologies to create a premium-quality, task-specific range that can help maximise efficiency and productivity and reduce your wiping and solvent costs.

- **WYPALL* Microfibre Cleaning Cloths**

Created for cleaning professionals, lifting and trapping surface dirt fast. Ideal for Offices, Healthcare and the Hotel, Restaurant and Catering industry.

- **WYPALL* Cleaning Wipes**

Portable and solvent free wet wipes. Ready to use anytime, anywhere. Ideal for Industrial Manufacturing and Transportation.

- **KIMTECH* Surface Preparation Wipers**

Giving precision and reliability in controlled and critical cleaning tasks for Transportation and Industrial Manufacturing environments.

- **KIMTECH* Process Wipers**

Strong, low-lint surface wipers for repeat use with cleaning chemicals and solvents within Transportation and the Industrial Manufacturing environment.

- **KIMTECH* Wipers for WETTASK* Systems**

Refillable, fully enclosed wiping system, giving you greater control over solvent / disinfectant use and wiping costs.

- **KIMTECH* Aerospace wipers**

Delivering expert solutions, specifically engineered for the precision standard of aviation tasks.

The WETTASK* System helps reduce the risk of cross contamination through its single-sheet dispensing delivery versus the traditional reusable wipe and disinfecting system protocols.

WYPALL* Microfibre Cleaning Cloths absorb up to 8 times their weight in liquid.

WYPALL* Microfibre Cleaning Cloths

Created for cleaning professionals

For repeat use, our WYPALL* Microfibre Cleaning Cloths can be washed up to 300 times, without affecting performance.

Creating a more cost efficient choice for busy cleaning professionals:

- **No need for cleaning chemicals**
Reducing your annual cleaning costs and helping you to be more environmentally conscious
- **Four colour variants, for easy task segregation**
Helping to minimise cross contamination
- **Designed to lift and trap surface dirt**
For faster more efficient cleaning

Greatly increased cleaning power

Microfibre Cloth

Cotton Cloth

Ideal for:

- **Desk and surface cleaning**
Lifting and trapping dirt effectively
- **Glass and mirror cleaning**
Smooth texture of green Microfibre Cloth, for streak-free reflective surfaces
- **Reducing the risk of cross contamination**
One coloured cloth per task, maintaining high-hygiene clinical standards

Supplied formats:

Technology / Certification:

Colour Options:

WYPALL* Cleaning Wipes

Pre-soaked, portable and ready to use anytime, anywhere

Ideal for manufacturing, engineering, maintenance, transport and service industries:

- **Removes stubborn grease and grime in one easy step**
No need for gels, rags, soap or water
- **Effective moisturising system**
Special formulation of natural and essential ingredients help reduce skin dryness
- **Specially designed fabric**
Cleans quickly, effectively and economically

1. Textured surface and advanced cleaning agent efficiently break down and dissolve stubborn dirt and grime
2. Absorbent layer soaks up and holds the dirt preventing it returning to the hands
3. Smooth surface cleans off any remaining dirt whilst leaving the skin coated with moisturisers

Ideal for:

- **Protecting hands and reducing skin dryness**
Solvent free, with added moisturisers
- **Removing oil, grease, and grime from hands, tools and machinery**
Strong and durable
- **Reducing waste**
Controlled single sheet dispensing

Supplied formats:

Technology / Certification:

Colour Options:

KIMTECH* Wipers

Our family of KIMTECH* Wipers can meet your task specific needs:

KIMTECH* Surface Preparation Wipers

When precision and reliability is essential, the KIMTECH* Brand performs. Providing critical task cleaning solutions in Transportation, Healthcare and Manufacturing wiping tasks. Delivering controlled consistency when it matters.

KIMTECH* Process Wipers

Strong, low-lint surface wipers for repeat use with cleaning chemicals and solvents. Great for wiping oils and grease and ideal for:

Printing and Automotive painting applications

Wiper is 100% silicone free

Choose from:

- **Tack Cloths**
Removing sanding dust in industrial and manufacturing environments
- **Sealant Wipers**
Non-woven open structure, ideal for wiping sealant from tools and brushes
- **Microfibre Wipers**
For automotive valet tasks, this cost efficient, washable high-quality polyester/polyamide cloth does not fray
- **Process Wipers**
Strong, low-lint wipers, ideal for repeat use with cleaning chemicals and solvents

Supplied formats:

Technology / Certification:

Colour Options:

* Blue, Green & Yellow is only for the microfibre

WETTASK* Wiping System

Well thought out in every detail.
Safe, simple and reliable.

Productivity

- Ready to use system saves the worker time and effort
- Provides flexibility of using any preferred solvents / chemicals
- Versatile and portable

Profitability

- Reduced solvent consumption by at least 20%
- Reduced waste disposal cost
- Single sheet dispensing

Health & Safety

- Reduce your environmental footprint with less VOCs
- Self-sealing lid limits exposure to solvents
- Increases worker safety

Minimizing VOC emissions and reducing loss of solvents

Durable self-closing lid and seal. Two component lid system with main lid to safely close the bucket and additional flap for flexible sheet removal and closure between uses.

Solvent consumption reduction

Airtight seal minimises over-processing waste by up to 20% as less solvent is used.

Being more efficient

Two rings with different apertures for efficient use of solvents and sheet dispensing depending on the chosen roll.

Visual management

Flexible system of individual colour coded identifiers to quickly and easily identify which solvent is in use.

Hazardous label to clearly identify all of the relevant information (wiper code, product name, hazardous ingredient, risk phrases etc.) for your workers.

Chemical choice

Refillable bucket filled with your selected base sheet and solvent.

Better storage

Stackable buckets to save space in the store room and to control the cost.

Make the right choice

Your choice of wiping materials can dramatically affect the power of disinfectant agent. With only 1.75 litres of your disinfectant in combination with our WETTASK* DS/DSX you will be able to disinfect an area of 250 m² and more.

Testing performed over a 4 week period concluded an outstanding performance of both KIMTECH* / WETTASK* DS and DSX Wipers.

7767 + Disinfectant A, B & C

7762 + Disinfectant A, B & C

■ Disinfectant A includes
(Benzalkoniumchloride + Glucoprotamine2)

■ Disinfectant B includes
(Glutaral + Benzyl-C12-18-alkydimethylammoniumchloride + Didecyldimethylammoniumchloride)

■ Disinfectant C includes
(Benzyl-C12-18-alkydimethylammoniumchloride + N-(3-Aminopropyl)-N-dodecylpropen-1,3-diamine)

----- Outstanding performance throughout the whole 4 weeks

———— Minimum reduction factor to pass the test

No fumes

One bucket... and a choice of wipers

Application/ Industry	Description	Useful information	Compatible
Industrial/Healthcare	KIMTECH* / WETTASK* SXX Wipers	Wiping and preparing industrial and health-care surfaces using your chosen solvent, chemical and detergent	
Aerospace	Aerospace Chemical Application Cloths	General wiping, surface prep, solvent wash, pre-cleansing Silicone free & anti-static	MEK, Isopropanol, Acetone, n-Heptane, Ethanol, Ethylacetate, Xylol, Cyclohexane, Trichlormethane BMS 15-5F and AMS 3819B certified
Aerospace	Aerospace Abrasive Surface Cloths	Wiping for abrasive surfaces Durable wiper to be used on riveted metal surfaces Silicone free	
Healthcare	KIMTECH* / WETTASK* DSX Wipers	Open textured wiper for increased dirt pick-up ability, ideal for cleaning up liquid spills and semi solid fluids	Use with disinfectants and detergents
Healthcare	KIMTECH* / WETTASK* DS Wipers Refill	Suitable for cleaning up liquid spills on smooth surfaces	

Ideal for:

- **Industrial surface wiping**
Using your chosen solvent
- **Surface preparation wiping**
Using with solvents and harsh chemicals
- **Healthcare surface wiping**
An alternative to sprays reducing wastage and giving better cost control

Supplied formats:

Technology / Certification:

BMS 15-5F / AMS 3819B
(for Aerospace cloths)

Colour Options:

KIMTECH*/WYPALL* Aerospace Cloths

Whilst understanding that surface preparation and cleaning is a very small part of the whole aircraft & equipment manufacturing, repair and maintenance process, it is just as crucial and requires precise, tailored products.

Aerospace Abrasive Surface Cloths

- **Highly durable** aerospace cloths specifically designed for abrasive surfaces.

Heavy Duty Low Lint Cloths

- **Advanced material** for optimum linting and extractables control.

General purpose and chemical application cloths

- **An easy to implement** lean cleaning solution that addresses waste reduction and productivity improvement around general wiping needs.
- **More controlled dispensing** and application of solvent for reduced waste and better overall performance versus traditional bucket/decanter systems and disposable pre-saturated options.

WYPALL* X80 FOD Prevention Wipers

Our new and innovative wiper to address Foreign Object Debris (FOD) in the aerospace industry.

An Optical Brightening substance coupled with a highly absorbent and tear resistant WYPALL* X80 Wiper allows for safe, efficient wiping in critical environments:

- **general cleaning purposes as well as for use with solvents and most chemicals**
- **Anti-static, silicon free and low-lint**
- **Detected in dark areas with 365nm wave length UV light**
- **Roll and sheet dispensing formats**

Supplied formats:

Technology / Certification:

BMS 15-5F / AMS 3819B

Colour Options:

Dispensing systems

Exceptional Workplaces*

Portable dispensing systems designed for all environments

Would a high-capacity, a mobile system or hygienic single sheet dispensing be best in your environment? We have created a complete range of practical and innovative dispensing systems to suit individual work environments.

Throughout the design process, we always reflect on your usage, hygiene, waste, maintenance and cost efficiency needs, plus product damage and contamination. Making it easier for you to select a reliable dispensing system.

▲
Mobile Stand Wiper Dispenser – Large Roll

▲
WETTASK* Roll Wiper Dispenser – Bucket

▲
Folded / Quarterfold Dispensing
Multiple dispensing positions for use at the point of cleaning, helping to reduce motion waste. Compatible with hygiene and safety standards.

▲
Centrefeed Roll
Hygienic multi-sheet dispensing, ideal for food areas. Featuring an easy, quick front loading and hygienic wipe clean surface that supports HACCP compliance.

▲
Roll Control Dispenser
Hygienic single sheet dispensing, ideal for food areas. Featuring an easy, quick front loading and hygienic wipe clean surface that supports HACCP compliance.

▲
Pop-Up Box
Flexible system that controls usage that is ideal for cleaning or wiping on the move. The system offers controlled usage whilst protecting the enclosed wipers.

▲
BRAG* Box
Mobile systems that control usage for cleaning or wiping on the move.

▲
Right Rag Box and Multi-Box
For instant wiper action giving you immediate access to wipers for emergency spills.

Together we create Exceptional Workplaces*

KIMBERLY CLARK PROFESSIONAL* don't just sell great products – we offer insights, support and a fresh perspective, delivering full service solutions that help change the face of your workplace.

How are we doing this? It starts by changing the conversation, reframing what a workplace can and should be all about. Not just a mere place to show up and work, but a place where people feel exceptionally safe, healthy and are inspired to be as productive as they possibly can be.

Our full service solutions offer you something much more valuable than just products: **healthier, safer and more productive workplaces.**

We call these Exceptional Workplaces*

Healthier

Safer

More productive

Healthier workplaces

More than ever, organisations are operating with a leaner workforce; as such, it has become vital for them to look after their employees' well-being and health, delivering more hygienic work spaces. We provide you with the tools that will:

- **increase employee engagement**
- **reduce absenteeism**
- **increase productivity**

Increased productivity

We understand only too well how critical it is for you to find ways to reduce costs and improve margins. With this in mind, our products are designed to:

- **be more efficient**
- **reduce paper waste**
- **reduce storage space**

All of this saving you time and helping you reduce costs.

Wiping solutions

We know that improving efficiency is important to you. This has, and continues to be, our number one focus.

By working together, our wiping solutions can more effectively solve your workplace challenges.

Safety solutions

We are a great source of current safety information, and we can help you stay on top of today's critical safety issues – to maintain business continuity, minimise lost work time and prepare for situations that threaten the safety of your workforce.

Washroom solutions

We set the standards when it comes to the Washroom environment. We commit ourselves to delivering a superior hygiene and superior image-conscious bundle that combines an impressive and innovative product range.

**Exceptional
Workplaces***

Our promise

We are in the people business.
Because people are the most important asset.

They make our workplaces work.
And we make their workplaces exceptional.

Exceptional Workplaces*
Healthier, Safer, More Productive.
